WHY **DDL** ADVERTISING?

WE ARE REAL: We are humans with hobbies, interests, and lives outside the world of marketing. However, we are pretty damn good at marketing and advertising. With DDL, clients get experienced marketers conveying complex concepts clearly, concisely, and hopefully, free of alliteration.

WE ARE MODERN: Marketing changes constantly. As such, we operate in a space where we are always refining best practices to meet changes in technology and strategy. We're big fans of pivoting when needed.

WE ARE REPUTABLE: We spend our time strategizing, creating, innovating, and executing for our clients. Their smiles, increased profits, brand awareness, event attendance, and new programs fill our cup. Clients come for the work and stay for the results.

WE ARE PASSIONATE: We are fiercely dedicated to delivering the best for our clients. We put traces of ourselves into each piece. We exist to make an impact and we carry that idea through every project we start.

WE ARE CREATIVE: Some of our favorite words include: test, learn, discover, push. We never settle. One of our mantras is "show, don't tell". We're better off showcasing our creative talents. Pontificating how *~*CrEaTiVe*~* we are misses the point.

WE GET **SH*T** DONE
